Behast-the RECREATION

Furniture must be practical. Further more, it has to fulfill other tasks. Furniture epitomises self appreciation & is an expression of your own lifestyle. Furniture "Speaks", giving you an idea of the philosophy of life, psycho-social behaviors & aesthetic impulses of the owner.

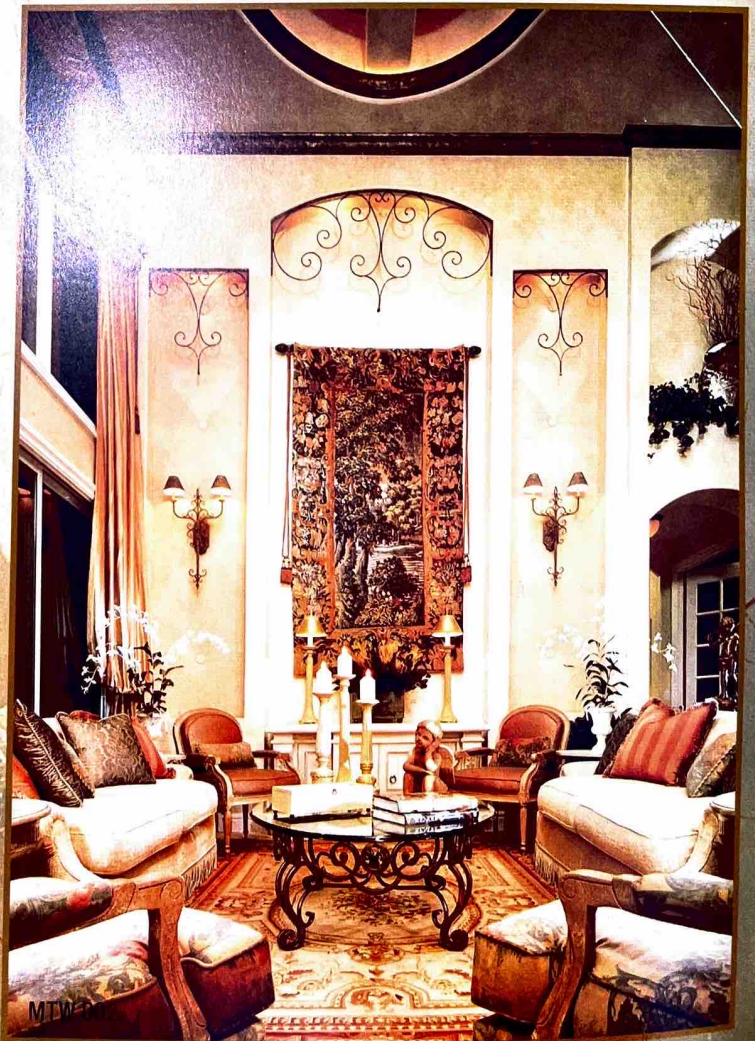

We as the "manufacturers" as the consultants, bear a great responsibility. We have developed furniture design guidelines which are in principle identified to those of Rosenthal but in essence specific to the product.

Furniture is often very expensive & considered as a capital investment. We create a re-assuring warmth which makes it a worthwhile experience to procure your best buys.
